Coaching and Mentoring for Agile Implementation from Watermark Learning

Did you know that Watermark Learning offers Coaching and Mentoring on Agile Implementation for your business? Whether or not your employees have taken Watermark Learning classes, you're invited to take advantage of our Coaching and Mentoring services to help move your business forward. And if you've already hosted onsite Watermark Learning classes at your organization, Coaching and Mentoring can be the next step to develop the skills your team members have learned.

Services Provided

Here is a partial list of what Watermark Learning's experienced subject matter experts can provide for your team in the Agile Implementation Coaching and Mentoring area:

- Coaching a team or teams new to Agile as you prepare to undertake your Agile journey
  - Observing and/or facilitating your team's Agile ceremonies:
  - Sprint zero activities (visioning, ground rules, creating the backlog)
  - Release planning
  - Sprint planning
  - Product demos
  - Retrospectives
  - Daily standups
- Facilitating your user story and other Agile artifacts (backlogs, burndowns, etc.)
  - Coaching on Agile development
  - Reviewing and commenting
- Providing Agile open coaching: an open set of hours to meet with your teams or individuals and answer their questions:
  - As a team is preparing for Agile development and/or
  - As the team is practicing Agile
- Agile assessments:
  - Assessing your organization/business unit's potential success with Agile, based on their organizational readiness
  - Sponsor engagement
  - Interviewing and observing your team's agile practices and publishing results/findings
- Agile leadership mentoring: mentoring managers and other leaders in how to lead self-organizing teams

Learn more about our Agile Training

Watermark Learning can also provide coaching and mentoring for industry certification programs, such as CBAP® and PMP®. We will also be happy to meet with you to design a coaching/mentoring program custom-tailored to your needs.

Benefits of Coaching and Mentoring

- Developing and honing skills learned in our Agile Training, Business Analysis Training, and Project Management Training classes

- Learning from the best – Our coaches and mentors, with an average of over 20 years of business experience, are also subject matter experts and instructors with a high level of expertise, ideas, and acquired skills.

- Access to business experience – Regardless of what your team has done or is doing, chances are our mentors have already done something similar. You'll avoid costly mistakes by learning how to do it right the first time.

- A sounding board – A Watermark Learning mentor/coach helps your team to stay on track, check assumptions, generate new ideas, and provides support.

- Improved chances of success – "You don't know what you don't know," but our mentors do. Leverage their experience and knowledge for your own success.
